--	--

Description

The vessel is hollow, without a bottom, and expanded conically up and down. There are two vertical handles in the connecting area of the "cones". The outer surface is ornamented with horizontal lines. Monocular-shaped vessels had a cult purpose. It is also assumed that the "monocles" could serve as stands or bases for drums.

Basic data

Material/Technique:	Clay, modelling, ornamentation, polishing, engobing, firing
Measurements:	h 205 mm, the biggest d 230 mm
