Description

This is the conical-shaped bowl. Its surface is covered with slip. The inner surface has a brown painting. There is a belt filled with jags on the rim. Two ribbons filled with thin lines start from the rim. In the lower part, it continues with a double wavy strip. In many ancient cultures, such ribbons are signs of the water snake.

Basic data

Material/Technique: Clay, modelling, engobing, painting, firing
Measurements: h 75 mm, rim: d 188 mm
